### About the Knowledge Resource Centre

The KRC widens the world of knowledge of science and technology and helps the students develop their holistic personality. The KRC has a vast collection of resources: 60,000 volumes of books, 5000 e-books and subscribe online journals of IEEE, ASME, SPRINGER, ELSEVIER, ASTM Digital Library, Mc Graw Hill Dictionary, J-Gate, and DELNET etc. The Digital Library allows browsing the Internet for e-journals and accessing the e- resources apart from 2000 technical educational CDs. Fully computerized KRC hosts Libsys software with WEB OPAC and multimedia contents are available through LAN.

### About the Conference:

The recent advances in Information Technology greatly influenced the perceptions of users while accessing information from electronic resources in libraries. Advanced electronic resources appear in huge numbers from time to time, require clear understanding and suitable skills to handle them.. To prepare the users of library for this situation and meet the ever-changing expectation in access to information, it is inevitable to update the user community with the latest information and required skills, wherein understanding user and their ability attain great importance. The focus of this national conference is to understand the expectation of the users on information access as and when the new gadgets, electronic products, and services and develop suitable skills to access the information successfully..
